

Nia Berry

Software developer with a strong foundation in user experience design and responsive web development

Work Experience

Tech@Lilly Intern, Eli Lilly & Company

Indianapolis, IN

Application Developer

May '24 - Aug '24

- Created a **Power App** dashboard to streamline user workflows by 30%
- Conducted stakeholder interviews and translated feedback into design improvements.
- Built a **React** prototype for a **hackathon**, winning "Most Innovative" and "Best Overall Solution."

User Experience Developer

May '23 - Aug '23

- Developed a **design system** web component in **React**, ensuring alignment with modern **accessibility** standards and improving cross-platform performance
- Documented component usage and guidelines using **Storybook.js**, contributing to a scalable, maintainable shared design system

Projects & Related Experience

FAMUnite, Senior Capstone Project

Tallahassee, FL Aug '24 - May '25

- Served as **project manager** across both semesters, overseeing team coordination, progress tracking, and handoff between development phases
- Designed **low- and high-fidelity wireframes** for mobile and desktop in **Figma**
- Built a responsive full stack application with **React, Java, and Firebase**
- Standardized visual elements using a **style guide and shared component library** to ensure brand consistency across user dashboards

Digital Brand & Media Coordinator

Tallahassee, FL Sep '23 - Oct '23

NSBE, BDPA, TedxFAMU, College of Science & Technology LLC, BVCC

- Served as an e-board member **managing social media and digital communications** across multiple student-led organizations at FAMU
- Designed branded **graphics, flyers, and websites** tailored to each organization's goals and audiences using **Canva, Adobe, & Wix**
- Collaborated across teams to coordinate announcements, campaigns, and event rollouts, ensuring unified messaging

Kind Mindz, KIND Case Competition

Tallahassee, FL Sep '23 - Oct '23

- Synthesized **consumer research and competitive analysis** into actionable insights, directly influencing the **first-place winning** UI concept and marketing strategy.
- Created **user personas** and presented findings through visuals and mockups to demonstrate solution strategies.
